

## Dear Parents and Carers,

We are pleased to share a fantastic opportunity for parents and carers, and learn more about keeping children safe online.

Nottinghamshire Police, in partnership with the East Midlands Special Operations Unit, is hosting a series of **free webinars** focused on **Cyber Security**. These sessions are designed to help anyone living or working with children or young people better understand how to protect both their own and their child's online privacy, security, and how to use parental controls effectively.

## What is Cyber Security?

Cyber Security involves protecting your devices, online accounts, and data from unauthorised access or cyber-attacks. With children spending more time online, it's more important than ever to ensure they are using the internet safely and responsibly.
